

**ADDENDUM
TO TITLE V PERMIT STATEMENT OF BASIS**

TITLE V PERMIT NUMBER 548412

EASTMAN CHEMICAL COMPANY, 82-0003
MSOP-25

SIGNIFICANT MODIFICATION NUMBER 1

MODIFICATION DATE: XXXX, 2005

The Title V permit number 548412, issued November 14, 2003, for Eastman Chemical Company, 82-0003, MSOP-25, was revised per the significant modification application dated May 10, 2005. The significant modification number 1 consists of the following revisions to the Title V permit:

Source specific revisions:

Source PES OC-BATCH:

Condition E3-1 was corrected to change the page no. reference in column 10 for the source description table to page 20 (was page 19).

Conditions E3-2, E3-4, E3-8, and E3-9 were corrected to change the Operating Plan application date reference in column 12 – periodic monitoring methods to April 23, 2004 (was March 24, 2004).

Conditions E3-8 and E3-9 were corrected to change the page no. reference in column 10 for the emissions limits table to page 24 (was page 23).

Condition E3-13 was added for the 40 CFR Part 63 National Emission Standards for Hazardous Air Pollutants (NESHAP) - subpart FFFF (miscellaneous organic chemical manufacturing (MON)) requirements. Also, Attachment 2 – MON Requirements was added. Emissions averaging plan (EAP) for the MON was included in the application dated May 10, 2005.

General permit revisions:

Condition E2-1 (a) (1) listing of conditions for semiannual reporting of monitoring and recordkeeping was revised by adding new condition E3-13 SPM-1. Also, SPM-1 suffix was added to conditions E3-2, E3-4, E3-8, and E3-9.

Condition E1 fee table was revised to add actual emissions analysis required (AEAR) for the amount of VOC-HAPs with a standard (MACT subpart FFFF).

New condition E2-5 for recordkeeping data entry requirements was added.
